

Abasyn University, Islamabad Campus

Assignment No.1

Software Requirements Engineering

Deadline: 22-10-2019

Do the following activities on the proposed software project as per your own choice:

1. Choose a software project by your own for an organization in Islamabad.
2. Identify all stakeholders. Make a list of all the stake holders along with their role and responsibilities.
3. Filter primary users from the stakeholder list along with their role and responsibilities
4. Identify all potential sources for requirements other than the stakeholders. Make a complete list.
5. Define the system boundary and context of the system. Draw a context diagram of the system by using DFD patterns.

Note. Hard-copy of assignment is to be submitted and late submission will not be entertained.
